Graduate School

The general purposes of the School of Graduate Studies is to offer a graduate program for intellectual and professional growth. The specific purpose in offering the Master of Education degree has been to meet the needs of the teachers and prospective teachers of Mississippi and to lift the educational level of the elementary and high school students served by these teachers. The Master of Arts and Master of Science degrees were added to give more concentration in subject fields for careers in research and/or college teaching. The Master of Library Science degree was designed to answer the ever-growing demand for public and school librarians. To meet the requirement of some businesses for in-depth knowledge of accounting, business administration, and economics, the Master of Business Administration degree was added to the graduate program.

Individual talents —

Alma Brent Alexander
Mr. Arthur Dean
"Dedicated In Their Memory"

FOREVER

Those we love truly never die
Though year by year the sad memorial wreath,
A ring and flowers, types of life and death,
Are laid upon their graves.

For death the pure life saves,
And life all pure is love; and love can reach
From heaven to earth, and nobler lessons teach
Than those by mortals read.

Well blest is he who has a dear one dead
A friend he has whose face will never change —
A dear communion that will not grow strange;
The anchor of a love is death.
